## WEEKLY UPDATE

PPE supply in the Ontario Health  
West Region during COVID-19

### Weekly Call to Action

If your organization has 7 days or less of PPE on-hand, submit an urgent request using the [online order form](#).

### Gowns and N95 Conservation

There continues to be a low supply of gowns and N95 respirators available across the province. Our supply chain is continuing to work on securing new leads for these products. Additionally, we are staying in contact with the Ministry of Health regarding when these supplies may become available through the provincial pandemic stockpile.

In the meantime, it is important to continue practicing conservation strategies to ensure these products remain available for the most critical needs. Check out the [Regional PPE Conservation Status Dashboard](#) to learn more.

# of Denied Orders	442	15.3%
# of MEOC Escalation	11	0.4%

\*Many of the Denied Orders are actually filled using supplies donated to local hubs. Other reasons include duplicate submissions and the request coming from a sector that is out of scope.

We have accomplished  
30 years of planning in  
30 days.

### Good News

"There has been a great deal of work and collaboration among the West Region supply chain organizations during the COVID-19 pandemic. We have accomplished the creation of a hub and spoke distribution system powered by a virtual warehouse to meet the urgent needs of healthcare providers across the region. Essentially, we have accomplished 30 years of planning in 30 days."

- Toby O'Hara  
General Manager, HMMS
